

# The New Nimbo Rollator Range!

**drive**

**DeVilbiss**  
HEALTHCARE

The Nimbo is a lightweight, wheeled walking frame which supports users from behind, helping to control posture by encouraging an upright position and trunk extension to enable a more fluid walking pattern.

Available in a variety of colours, the Nimbo comes in five different sizes to accommodate toddlers through to adults. It's suitable for supporting those with Cerebral Palsy and other neurological conditions or can be used for gait training during physiotherapy.

- ▶ Available with or without seat
- ▶ Easy, tool-free height adjustment to suit various users
- ▶ Anti-reverse mechanism
- ▶ Anti-reverse override system enables walker to be used forwards or backwards
- ▶ 5" soft rubber wheels grip any surface and prevent Nimbo sliding backwards
- ▶ Smooth, latex free comfortable handgrips with flanged ends
- ▶ Supports user from behind encouraging upright posture
- ▶ Front swivel wheels enhance manoeuvrability
- ▶ Easy swivel wheel lock for greater control
- ▶ Folds easily for storage and transportation
- ▶ Sturdy, yet lightweight aluminium frame
- ▶ Available in 4 colours
- ▶ 5 different sizes
- ▶ Range of accessories available
- ▶ 12-month warranty

All sizes available with or without seat

Smooth, latex free comfortable handgrips with flanged ends

Easy, tool-free height adjustment to suit various users

Sturdy, yet lightweight aluminium frame

Add the Colour Code to the end of the size code found in the specifications.

## Nimbo Accessories

### Dial A Speed Tabs

Allows for variable resistance on rear wheels to control walker speed

**KA 1400**

### Bumper Guards

Rubber guards protect front of walker and walls from damage

**KA 8000**

### 9" Outdoor Wheels (Short / Long)

Front outdoor wheel option. KA8100 (Long) fits Nimbo sizes (S, M, L, XL). KA8100S (Short) for use with KA1200 (XS) only.

**KA 8100S / KA 8100**

### Soft Seat Harness (Small / Large)

Properly positions pelvis and moves with the natural gait pattern of the user. Harness is adjustable

**CE 1070S / CE 1070L**

### Pelvic Stabilizer

Provides added stability to pelvis for improved manoeuvrability. Width adjustable and includes pelvic belt

**KA 1050**

### Forearm Platform (Small / Large)

Highly adjustable for additional arm support. Height, depth and angle adjustable

**KA 1035 FPS / KA 1035 FPL**
