

# The **GEPARD**

The Mobilex Gepard has a frame made of carbon fibre, making it one of the lightest rollators on the market at just 5kgs\*. Although very light, it offers a high degree of stability coupled with ease of movement.

The push handles are height-adjustable with easy to read numerical markings and a simple thumb turn lock. It features a textile seat, padded back strap, walking stick holder and a unique locking system that stops it reopening once folded.

The large 200mm (8") smooth-running wheels have soft tyres for enhanced comfort, and the rear wheels are equipped with brakes for optimum speed and movement control. These are also lockable for parking. The mesh bag has a load capacity of 5kgs and can be removed and used as a convenient shopping bag.
