

Invacare®
Birdie® EVO

Optimised design for safe transfers

An evolution in mobile hoists

The new **Birdie^{EVO}** family has been designed to offer a high feature-set of options that have been blended with new technologies to provide maximum comfort and security when lifting or transferring a patient to or from a bed, chair or even the floor.

Based on the renowned Birdie, the new range has been customer insight led, encompassing everything that was valued on the Birdie whilst bringing in new features to further enhance the client and carer experience.

Impressive lifting range

The **Birdie^{EVO}** range encompasses an ergonomic lift that allows the client to be easily rotated 360°, making positioning much easier for the carer and reducing anxiety for the client.

Maximised space

The high boom ensures there is space for the client, even when the hoist is in its highest position, and the optimised space in front of the actuator reduces the risk of injury to the client's knees.

Easy to handle, transport and store

The new **Birdie^{EVO}** family can be easily folded and unfolded without the need for tools. They take up minimal space when stored and are easy to push and transport. If required, the mast can be very easily detached from the base (no tools required).

The **Birdie^{EVO COMPACT}** has a low weight of 31 kg making it even easier to transport and store.

NEW **EXCLUSIVE**
FEATURES

Curved Design of Boom and Spreader Bar

▶ Distinct design allows carers to maintain eye contact with clients throughout a transfer.

Hook Design

▶ Securely attach slings with one hand thanks to a new user-friendly hook design.

Ergonomic Push Bar

▶ Ergonomic design of the push bar makes handling and manoeuvring easier

Battery Status Indicator

▶ Delivers peace of mind regarding the remaining lifts that are achievable

Curved Leg Design

▶ Provides a cocoon like feeling and enables easy movement around objects.

Key features at a glance

◀ Hook Design

- Securely attach slings with ease, thanks to a new intuitive hook design
- Special ergonomic shape to attach sling from above or from below
- Flexible and outward pointing lip enables easy sling detachment

◀ Ergonomic Push Bar

- Ergonomic design of the push bar makes handling and manoeuvring easier
- Increased depth of handles allows for comfortable arm extension during transportation
- Designed with carers in mind

◀ Curved boom and spreader bar

- Distinct design of the boom and spreader bar allows carers to maintain eye contact with clients throughout a transfer
- Uninterrupted field of vision helps to alleviate any concerns for the client
- Enables 360° rotation of the spreader bar at the highest position to protect the leg from coming into contact with the mast

◀ Status indicator on battery

- Battery gauge indicator included as standard on all models
- Delivers peace of mind regarding the remaining lifts achievable
- Battery can be easily detached for efficient off-board charging

Introducing the **Birdie^{EVO}** family

The mobile hoist range.
Designed with clients and carers in mind.

Birdie^{EVO}

▲ The new standard in client transfer

A redesigned version of the market leading Birdie mobile hoist, designed to support safe transfers in both domestic and residential care.

Lifting range ▶ 415 - 1660 mm

Safe working load ▶ 180 kg

Turning diameter ▶ 1400 mm

Birdie^{EVO COMPACT}

▲ Smaller footprint for easier manoeuvrability

A smaller size allows the Birdie^{EVO COMPACT} to easily operate in environments where space is limited.

▶ 530 - 1590 mm

▶ 150 kg

▶ 1070 mm

Available options and accessories:

- ▶ Electrical or mechanical leg spread (available on 180kg model only)
- ▶ Electrical or mechanical emergency lowering
- ▶ Selection of 2 point or 4 point spreader bars in various sizes
- ▶ Extensive range of durable slings available in various sizes, styles and fabrics
- ▶ Lever for mechanical leg spread
- ▶ Homecare scale
