

The **LION**

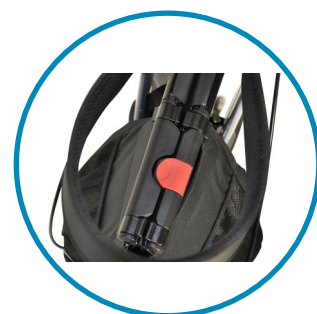

The Mobilex Lion is designed for use outdoors where the ground surface is varied. It is perfect on off road trails, over cobblestones and gravel pathways where its large soft wheels can ensure a comfortable ride. Although robust, it is still relatively lightweight, and offers a high degree of stability and ease of movement.

The push handles are height-adjustable with numerical markings and a simple lock. It features a textile seat, padded back strap, cane holder and a unique locking system that stops it reopening once folded.

The large 9" smooth-running rear wheels are equipped with brakes for optimum speed and movement control, and are also lockable for parking. The mesh bag has a load capacity of 5kgs and can be removed and used as a convenient shopping bag.
