## Indoor rollator

NEW

Danish Design

*A bit of luxury*

Only available  
in Black and  
White

### THE BEST CHOICE

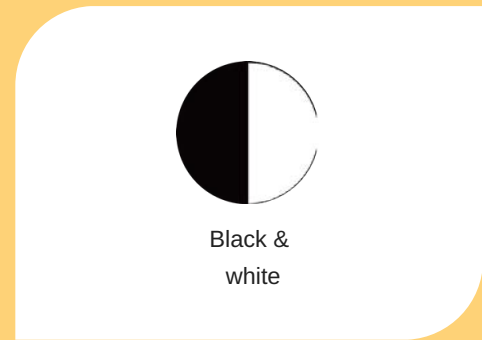

PIXEL is a multifunctional and very practical ultra-lightweight rollator for indoor use. It is for persons who want to maintain an independent lifestyle, but need a little help, support and safety to get around in the house. Besides stylish, unique and modern design, Pixel has a very low weight of only 5.2 kg.

Stylish, unique and modern design. The frame of PIXEL is made of aluminum.

With its 5.2 kg (incl. tray table and textile basket) PIXEL is one of the lightest indoor rollators on the market.

Black & white

PIXEL is available in 1 color combination: classy black & white

With PIXEL, you get also a practical open net bag for storing personal items such as mobile phone, TV remote control, medicines, glasses, keys etc.

Includes a detachable tray in a nice smoke brown color, practical size and shape as standard. Dishwasher proof.

Includes a removable and washable textile basket for storage or moving of slightly bigger things as standard.

The hand brake control bar with user friendly paddles can be easily adjusted and works smoothly in two ways. It can be easily operated with one hand.

The push handle is easy to adjust to the required height (86-97 cm) with 5 adjust. increments that are marked with numbers 1-5. It can be also done with one hand.

The hand grip is covered with soft foam and is very comfortable to hold.

PIXEL is equipped with a unique locking system that makes it easy to lock or unlock the rollator when you want to fold or unfold it.

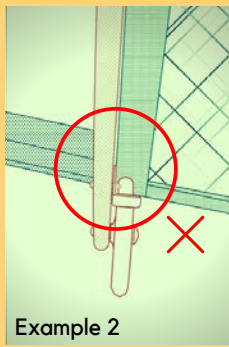

Wheels are equipped with soft, black PU tyres which provides excellent comfort and optimal grip on smooth surfaces/floors.

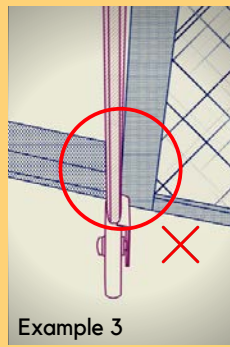

The rollator design combined with very low weight and super soft wheels provides extremely good performance when climbing door steps etc.

PIXEL

Example 2

Example 3

Integrated rear wheel caster prevents rollator from getting stocked when passing by door openings, furnitures etc. In addition it prevents interior from being scratched.

The frame design allows PIXEL to move closer to your chair, couch or bed, being used as side table.

PIXEL and its tray can be used as a serving trolley or as a table to eat from.

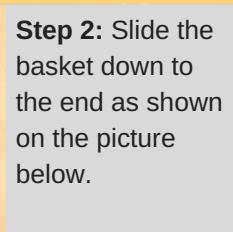

With its width of 54 cm and swiveling front wheels, it can easily turn and pass very narrow doors, for example kitchen or toilet doors in old apartments.

### Folding in 3 steps

**Step 1:** Press the red button to unlock the basket and turn it to vertical position.

**Step 2:** Slide the basket down to the end as shown on the picture below.

**Step 3:** Fold the frame by pulling the basket towards you until you hear a light click sound.

Convenient, space saving storage - PIXEL is very easy to fold, unfold and store. Folding and unfolding can be done in 3 steps. It stands on its wheels when folded. Remains locked in folded position.

*To unfold it, just do the opposite in reverse order.*
