

drive **RD**

Designed for Rapid Deployment (RD) in emergency medical care environments

Quick and easy assembly – no expert knowledge or specialist tools required

Models available with or without castors

 **UK DESIGNED AND MANUFACTURED**

The Rapid Deployment (RD) Bed from Drive DeVilbiss Healthcare is a fixed height, two section profiling bed with a manually adjustable backrest. Designed for ease and speed of assembly, the RD Bed is ideal for use in areas such as field hospitals and emergency community settings. Packages to quickly assist the furnishing of such environments are also available.

HEALTHCARE

Features:

- » Sturdy, durable and most importantly quick and easy to assemble.
- » A fixed height, two section profiling bed with a manually adjustable backrest – no requirement for mains electricity.
- » Quick release head and footboards, enabling easy access to patients head for intubation, ventilation and other medical procedures.
- » Simple lower release backrest to support patient care and enable quick CPR intervention if required.
- » Easily adjustable, multi position manual backrest to enable patients to be nursed in a semi-upright position.
- » Comes flat-packed to maximise storage space.
- » Assembled rapidly, no expert knowledge or specialist tools are required.
- » Easy to clean and decontaminate using standard hospital protocols.
- » The RD Bed is available with or without castors.
- » Accessories including side rails, drip poles and grab handles are available.
- » Packages are available to include the RD Bed and other essential hospital room equipment to quickly and easily furnish field hospitals and emergency community settings.
