VISION 

Rascal Vision

the first sense

You'll know a good thing
when you see it

Setting the standard in performance, comfort, reliability and quality

The new Rascal Vision offers a world of difference. More than you might expect from a Class 3 scooter, but everything you need to set the pace – making life easier with just the right touch of style.

Engineered for high performance

Designed to exacting standards of quality

Innovation and excellence come as standard

Where comfort is miles better, even
on longer journeys

Out in front for stylish design

A tough new breed of scooter – the Vision combines a great new look with uncompromising intelligent design. Form and function come together to create something very special.

With the introduction of this latest member of the Rascal family of scooters, we make sure that you never stand still.

Put the Rascal Vision to the test

It's our attention to detail that makes all the difference

Front coil spring suspension, shock absorbers and large 14"/16" pneumatic tyres for a smooth ride.

Innovative inertia system that automatically reduces speed on tight turns, dynamic stability and anti-tip technology for safety and peace of mind.

Digital, easy-to-read LCD dashboard.

Delta handlebar and easy to operate controls for ultimate driving comfort and control.

Unique twin hydraulic disc emergency braking system provides total reassurance and safety.

Half-speed control for riding in pedestrian areas.

Rear mono shock single suspension for even greater comfort

Going the distance – miles better, large enough to cope

Luxurious contoured, high-back seating system with 3 individual modes of adjustment for ultimate comfort at all times.

Tilting back adjustment for perfect levels of support.

Sliding mechanism for the ideal leg position.

Dual position armrests for the optimum driving position.

Super bright LED lighting.

(optional)

Carrying capacity up to 32 stone

Start on a new journey of
discovery and pleasure with the

Rascal Vision
