sport

Sharp shape and rock-solid build quality make this a modern classic.

Welcome to the Vecta Sport, a revolutionary new scooter that combines new edge design with the latest technology to make a scooter that looks good and performs even better. The result of three years' development, the Vecta Sport is built to perform with a host of user-friendly features, like the 25-stone carrying capacity, the "RunOn"™ run-flat tyres and revolutionary "Max Grip"™ transmission, to keep you going when other scooters cannot. Wherever you are, with a range of up to 27 miles, there is nothing to stop you.

VECTABILITY

DESIRABILITY

Style comes
as standard.

Designed without compromise, the Vecta Sport combines echoes of iconic styling with a modern clean silhouette. But it doesn't just look good, the Vecta Sport is practically perfect too. Available in two contemporary colours, Cobalt Blue and Graphite Grey, the Vecta Sport is in a class of it's own.

MANOEUVRABILITY

Travel first class every time.

The Vecta Sport offers the best of both worlds. Robust and sturdy on the road, agile enough for the pavement and at only 52" long, it doesn't require a large storage space. Wherever you are, the adjustable suspension guarantees great ride quality and overall comfort whilst the 600W new technology motor will tackle even the steepest hills with ease.

Take a seat and relax in style.

Sit behind the adjustable tiller and you will benefit from a protected position that offers an enhanced sense of safety.

Behind the tiller you will find a useful storage pocket to hold small items and a dedicated USB port to charge your mobile phone.

Wherever you go, you will find the unique mirrored running light, positioned high on the tiller, provides both style and aids visibility. This combined with super bright LED headlights ensures you can see, and more importantly, be seen at all times.

USABILITY

CAPABILITY

Born to run and run and run.

The Vecta Sport has performance and substance. The 600W new technology motor gives you a range up to 27 miles, perfect for those long days out visiting friends, family or exploring the countryside.

The powerful new technology motor coupled with the latest Max Grip transmission, featuring a limited slip differential gearbox, ensures that the Vecta Sport keeps going where most scooters would struggle.

And in the event of a flat? You just keep going.

The Vecta Sport offers the ultimate in piece of mind motoring with its RunOn tyres ensuring you get home safely, even if you get a puncture.

Enjoy the ride,
wherever you go.

With plenty of leg room and
3-way adjustable seating, the
Vecta Sport can be tailored
to suit every shape and size.

ADJUSTABILITY

Add to that lumbar support,
a highly-padded seat and
moving armrests for easy
access, you will always travel
in total comfort.

The Vecta Sport is
completely versatile.
The seat has many different
positions, moving forwards
and backwards, up and

down, and the tiller is also
adjustable, tilting towards and
away from the rider to further
enhance the ergonomics and
your sense of safety.
