

Mattress Options

Latex Mattress Code: RMATLTX30

Latex foam mattresses are a recent innovation to the market and are starting to become more popular because of their quality and great levels of comfort. Excellent heat reduction and breathable properties, which are more efficient than any other type of foam, allowing the mattress to breathe and keep fresh. Hypo allergenic and anti microbial, the material which prevents dust, mould and bacteria from settling in the mattress.

Pocket Sprung Mattress Code: RMATPS

Pocket sprung mattresses are one of the most comfortable mattresses with an effective design that provides high levels of comfort and support where it's needed most. They are designed to contour with your body and are constructed of numerous individual springs that move independently, giving an exceptional amount of support and cushioning. A pocket sprung mattress uses these individual springs to respond to everyone's individual body weight, increasing their usability and comfort.

Memory Foam Mattress Code: RMATMF

Memory foam has a unique open cell structure that reacts and responds to body heat and weight by moulding to the contours of your body, therefore optimising the support it provides. It is the most effective material for relieving pressure points and used for prevention of pressure sores and has multiple orthopaedic benefits making a huge difference to your quality of sleep. This mattress is made up of 7cm of memory foam bonded onto 15cm of reflex foam.

Pocket Memory Foam Mattress Code: RMATPM

The pocket sprung part of the mattress is made with superior quality springs providing the familiar bounce of a traditional mattress. A 7cm layer of high density memory foam is added to provide excellent comfort and support, moulding to your body for a comfortable night's sleep. Owing to the Thermal properties associated with memory foam this provides a warmer option during the winter months. Alternatively you can turn the mattress and sleep comfortably on the cooler side of the 500 pocket spring system, thus providing a firmer support where needed. Available in beige or grey.

No Turn Memory Foam Mattress Code: RMATMF30-2

Memory foam has a unique open cell structure that reacts and responds to body heat and weight by moulding to the contours of your body, therefore optimising the support it provides. It is the most effective material for relieving pressure points and used for prevention of pressure sores and has multiple orthopaedic benefits making a huge difference to your quality of sleep. This mattress is made up of 5cm memory foam bonded onto 15cm of reflex foam.

Reflex Foam Mattress Code: RMATRF

Luxurious Reflex mattress, ribbed carefully to work in harmony with your body. The Completely Filler-Free Reflex achieves the most outstanding levels of performance, shape retention and long term durability. Its unique construction ensures excellent mattress ventilation.
