Air Active

Providing you with Effortless Mobility at Only 15kg** Carry Weight.

drivedevilbiss.co.uk

Air Active

Experience freedom of movement with the Air Active, a versatile and portable mobility scooter designed for both indoor and outdoor use. Combining comfort, and ease, it's perfect for quick trips or long days out at just 15kg in carry weight**.

Additional Features

The Air Active offers adjustable comfort with features such as tiller adjustment, armrest width adjustment, seat rotation, and seat height adjustment, ensuring a tailored experience for every user. A supportive, padded, and contoured seat provides comfort for both indoor and outdoor rides. Advanced safety technology enhances stability, enables quicker stopping distances, and includes a wider front wheelbase for improved control. Additionally, the off-board charging option allows the battery to be charged separately, while a convenient USB port enables charging for small devices on the go.
