Multi Flex

A porter chair with
angle adjustable seat and
independent back recline.

Multi Flex

The Multi Flex is engineered for comfort and durability in any environment. Fully adaptable, with a wide range of optional upgrades to fit this robust porter chair perfectly to the needs of each user.

Key features at a glance:

- Option of back support cushions
- Option of pressure management seat cushions
- 3 size options
- Independent back rest recline
- Seat angle adjustment
- Seat depth adjustment
- Sliding footplate, padded and with a removable cover
- Heavy-duty push handle with rubber grips
- D-rings fitted as standard
- Four heavy duty lockable castors
- Available in a wide range of fabrics.

Additional options:

- Leg support block and connecting straps
- Lap strap and pad
- Full length arm covers
- Range of headrests.

“A robust and very comfortable porter chair designed for any healthcare environment with ease of adjustment, movement and with tremendous adaptability.”

Kate Sheehan
Independent Occupational Therapist
